Our Mission; To Ensure Your Success

Exit Planning: If possible, you should consider a two or three year exit strategy. This allows for you to work with a team of advisors not only to maximize the sale of your company but to ensure that you keep the most of that value that you have created. The CBB Group works with other trusted advisors such as Wealth Management, CPA's and Estate Attorneys that can assist you in this process. We will provide you with a market range of value for your company and discuss ways to maximize that value over a two to three year, time horizon. Then when you're ready, we will be too.

Our first meeting is structured to see if you are ready and able to sell. We start by sitting down with you and your team, at no cost to get to know you and review your goals. During this process we will review the following:

SERVICES

* *Once the decision to sell has been made, it is essential to prepare, and to prepare well, so that you get the best possible price.*

* ***What should you expect?***
  The first step is to learn what your business is really worth. It is our policy that our listing clients undergo a confidential Business Valuation and Review. The purpose of this is to fully inform prospective buyers and their advisors about your business including its history, strengths, weaknesses, opportunities and most importantly, its intangible values.

* *We believe very strongly that it is essential for these facts to be presented professionally, accurately, and in the best possible context in order to obtain the best possible price for your business. As a qualified buyer, you want and deserve nothing less. The cost of this essential service is refunded to the seller at closing.*

* *Once you understand that value, the next step is to build upon or even multiply that value.*
